REPAIR**

INSPECTIONS

- Contractor or homeowner to be on site with stamped approved "job copy"
- Please call the Building Division at (847) 359-9042 at least 24 hours in advance to schedule an inspection.

The following inspections are required:

- Inspection is required when repair work is completed prior to backfilling.
- Property restoration inspection - when any outside excavation work has been restored.

ADDITIONAL INFORMATION

Homeowner's Associations (HOA) may have covenants, conditions and restrictions that are more restrictive than the Village of Palatine's Zoning Ordinances. Therefore, it is the responsibility of the homeowner to acquire approval from their Homeowner's Association for any construction proposed under this building permit. The Village does not require HOA approval prior to issuing a permit.

Signatures

I hereby certify to the correctness and accuracy of this application and all submitted information and agree to perform the above construction in strict compliance with all provisions of the Village of Palatine code of ordinances. It is my understanding that no error or omission in either the plans or application, whether said plans or application has been approved by the Community Services Department or not, shall permit or relieve the applicant from constructing the work in any other manner than that provided for in the ordinances of the Village relating therein. In addition, I hereby authorize the above listed contractors to perform all work necessary to complete the requirements of this permit. I also understand that the Code Official upon presentation of proper credentials may enter at reasonable times any building, structure or premises in the jurisdiction to perform any duty imposed upon him by such ordinances. Having read this application, the information handout, and fully understanding the intent thereof, I declare that the statements made are true to the best of my knowledge and belief.
